

Method selection under a fixed 48-well budget

**Need a trusted
operating region**

→ **SPADE**

Larger certified volume
Honest containment
May abstain if unsure

**Need one
carry-forward recipe**

→ **DoE / BO**

DoE often wins on regret
Competitive with longer BO
Different job than regions

**Very high
assay-like noise**

→ **Abstain**

Nothing certifies safely
Replicate / reduce noise
before claiming a region
